*Festival 'Ensembles III. Perspectivas XXI.

PluralEnsemble is pleased to present a new edition of the Festival 'Ensembles III. Perspectivas XXI. Música del Siglo XXI en España y en Hispanoamérica'. This initiative is born of the restless curiosity of the directors of the most outstanding groups of our country: 'PluralEnsemble', 'Barcelona 216', 'Grupo Enigma' of Zaragoza and 'Taller Sonoro' of Seville, along with that of our composers, important examples of the panorama of contemporary music of Spain. Our wish and intention is to join forces and introduce to the wider public Contemporary Music performed by Spanish musicians in the principal concert halls of the cities where these groups carry out their activities. The purpose of these concerts is to facilitate the understanding of our music and, for this reason, the concerts are complemented by round tables where the composers and musicians themselves, in conversation with the audience, offer their vision of the works that will be heard in the concert. This project counts on the support of the Ministry of Culture and the Instituto Nacional de las Artes Escénicas y de la Música.
